

## Intent

At Southrop Primary, we want every child to be active, to be physically confident to join in a range of sports activities and to understand the benefits of working as a team. The children have opportunities to compete in sport and other activities which build character and help to embed an understanding of fairness and respect. We want our children to understand that physical activity is necessary to have a healthy life.

## Implementation

At Southrop we use the National Curriculum to structure our PE curriculum. Working with Atlas Sports we have developed a rolling long term plan which considered a range of sports, athletics, gymnastics, dance, swimming and alternative sports.

We offer two PE lessons a week, with the possibility of join a two hour PE club each week. The children in Year 2, 3 and 4 have 15 swimming lessons a year at Cricklade Pool. The Year 5 and 6's also have intense swimming if they are unable to swim 25m or have water safety lessons for 10 weeks too. Each year the children have the opportunity to experience and alternative sport such as rock climbing, fencing, bikeability, balanceability and scooterwise.

Our PE lessons are structured

Superstar at the end of each lesson.

Impact

Traffic light system

Healthy children for life?

Understand how to be part of team

Able to swim 25 m

Different sports.
